ENVISION EXPLORE EXCEL

ABOUT US:

Our journey towards coloring the future began in the year 2019. We started with only the kindergarten and now, we are expanding our journey to primary school, one small step at a time. We have all the support of our kindergarten family who are happy to see us grow. Our inspiration will always be first and foremost our children, their enthusiasm, innocence and curiosity.

OUR VISION:

Our vision is to create an environment where our children are able to engage with their imagination, foster their creativity and build a well-rounded love for learning. We strive to ensure a safe, stress-free and supportive learning space. This encourages a lifelong learning in the child.

OUR PHILOSOPHY:

Children at Rainbow International are inimitable. We help shape our children to be resilient, curious, giving and good, as we believe from goodness arises greatness. We cultivate compassionate and confident young people.

OUR CURICULLUM:

We follow the Indian syllabus, Central Board of Secondary Education pattern that envisions a holistic curriculum in which students develop competence, confidence and practical skills. Ours is an appropriate and intellectual learning style.

OUR TEAM:

What ultimately sets us apart is our team of dedicated teachers and facilitators who never cease to amaze us with their enthusiasm for the job and professionalism. They bring with them many years of

experience and different styles of teaching. They are educators who believe that every child is worth investing in and deserves nothing but the best.

We believe that learning is a lifelong journey and we incorporate inspiration and fun in all that we do. We extend a warm welcome to all parents, children and the community and share with you, our promise of quality education.

WHAT WE DO:

Our aim is to provide a safe and caring environment, where children can gain a positive approach to school and learning while learning to care for and respect each other. To this end, many of our activities involve learning in a group while giving each child the freedom to explore their own creativity. At Rainbow, children are enthusiastic to come to school every day. We want to foster this curiosity and confidence that will remain with them through their school life.

WHAT WE TEACH:

We provide a well-rounded learning experience using carefully selected textbooks from reputed publishing houses to build a strong foundation in every subject. Our curriculum focuses on the holistic development each child through a balanced blend of academics, creativity, physical activities, communication, and social interaction.

Our learning program includes : English, Mathematics, Environmental Science (EVS), Rhymes and Songs, Yoga, Indoor and Outdoor Playtime, Learning Etiquette and Good Manners, Dance and Movement, Talk Show and Show-and-Tell Activities, Art and Craft.

Our aim is to create a joyful, safe, and stimulating learning environment where every child can explore, discover, develop essential life skills, and grow into a confident, independent, and well-rounded individual.

SCHOOL TIMING:

PRE KG & LKG	UKG
10:00 to 14:00	9:30 to 14:00

Holidays: Saturday, Sunday and Japanese National Holidays

OLYMPIAD:-

We have partnered with Silver zone to conduct the Olympiad exams. Our school will serve as the examination center. Students who are able to prepare independently may appear for the exam offline from their home.

SUMMER SCHOOL:

*The storytelling session will encourage children to develop a love for stories through activities like read-aloud, circle story time and puppet theatre.

*Cursive writing will be practiced to improve handwriting.

* Learning Mathematics in a fun way through stories, puzzles, riddles and digital games.

*Safety and First Aid is important in our everyday lives. We will teach them road safety, safety precautions while using electrical equipment's, car safety and first aid.

*Fun with health will be based on fireless cooking on healthy recipes for kids.

*Fun with science will be based on STEM experiments and challenges for kids.

It will be held during July and August during summer vacation at an additional cost.

SPECIAL DAYS AND EVENTS

- WORLD EARTH DAY:-

The children learn about the five Rs – reuse, recycle, repurpose, reduce and refuse plastics. They also learn the importance of growing plants and trees.

- PULSES DAY:-

Students learn about the health benefits of pulses; they bring a pulse-based lunch and also listen to stories about how pulses taste best when enjoyed together.

- STORY TELLING DAY:-

Students narrate stories to their friends in class and also listen to stories based on different topics. This helps them to speak more confidently in a crowd of audience.

- ART FROM WASTE DAY:-

Students are asked to bring waste material from home – newspapers, bottles, jars – and use them to make items like dolls and flower vases.

- OBON ODORI CELEBRATION:-

Students and teachers wear the traditional dress and celebrate by dancing to three different dances. They also write their wishes and hang it on a bamboo tree.

- SPORTS DAY:-

Students put up a spectacular performance during their annual Sports Day. They participate in drills, poses and formations and also take part in several races.

- SHOW AND TELL DAY:

An exciting event where students bring their favourite objects, share their ideas, and speak about topic of their interest. It encourages confidence, creativity, communication, and public speaking skills through fun and interactive presentations.

- WINTER CONCERT:-

Our winter concert is a medley of dance, music and drama. Our Sakura class participated in a fancy dress show and graders took part in skit, an environmental play, regional and western dances.

- FIRELESS COOKING DAY:-

Students are given time to think about what they would like to prepare in class and they bring the ingredients from home, accordingly. They assemble their dishes in class and these were judged by an external facilitator, based on creativity, taste and presentation.

- SCIENCE EXHIBITION:-

A platform for students to showcase their scientific knowledge through innovative models, experiments, and working projects. It promotes curiosity, creativity, practical learning, teamwork, and scientific thinking.

- FIELD TRIPS AND EXCURSIONS:-

Students are taken for a field visit/ farm visit, where they engage in vegetable picking and get to know how they are grown and cultivated. They are also taken for an excursion once in every academic year.
Such events will be conducted on a regular basis and our aim is to have at least one special day a month. We will add new days and events as we step into new academic years.

REQUIRED DOCUMENTS DURING ADMISSION:

1. Passport size photograph
2. A copy of residence card front and back
3. A copy of the child's passport.
4. Graduation certificate/ Transfer certificate (Whichever applicable)
5. Report of medical exceptions/ allergies if any.
